About Me

I am a passionate and experienced professional with a deep-rooted interest in React and web development. With a background as a system engineer, I have honed my skills in problem-solving, attention to detail, and the ability to work with complex systems.

With a strong foundation in both engineering and web development, I am well-equipped to tackle complex challenges and deliver high-quality, user-friendly web applications. My journey in these fields is defined by a relentless pursuit of excellence and a genuine enthusiasm for creating impactful digital experiences.

Work Experience

System Engineer

Infosys Technologies Private Limited

December 2021 - Current

Project 1 - Backend Engineer at T-mobile

- Updated and optimized code for tokens to enhance system performance.
- Thoroughly tested code changes to ensure reliability and security.
- Successfully pushed code changes to the GitLab branch, maintaining version control.
- Maintained detailed records of microservices worked on, tracking progress and outcomes.
- Completed comprehensive training in Java and Spring Boot during the project.
- Achieved the "Infosys Certified Spring Boot Developer" certification.
- Updated Jira tickets to keep project tasks organized and on track.
- Maintained and updated the release Confluence page to document project releases and updates effectively.

Project 2 - Software Engineer at Proximus, Belgian Telecom Company

- Accomplished successful implementation of JWT token changes across a network of 63 intricate microservices, enhancing security and authentication measures.
- Vigorously preserved the robustness of microservices by consistently conducting cleaning and optimization of Maven builds.
- Demonstrated adept management of the complete software development lifecycle, encompassing building, testing, and seamlessly pushing changes to GitLab upon successful builds.
- Maintained comprehensive records for all microservices, ensuring transparency and fostering accountability in all aspects.
- Proactively identified and adeptly resolved any development process roadblocks, fostering collaborative cross-functional team efforts for timely resolutions.
- Diligently updated Jira tickets, meticulously tracking progress, and thereby maintaining clear project visibility.
- Effectively communicated with clients, attentively comprehending their requirements and offering adept solutions to any issues or concerns they presented.
